

Winter

Teenage Fanclub

The summer was out of sight
We couldn't sleep at night
Shadows were closing in
Back in the dark again
Basement, we didn't own
Cut off the telephone
Ceiling was falling down
Winter was underground 'Cause there are worlds
We can find
A hidden place
Is in our minds
Place where the water falls
Nobody ever calls
Sky is forever clear
Road never made it here
Forests are deep and green
Like nothing we've ever seen
Heavens revolving
Seasons change everything 'Cause there are worlds
We can find
A hidden place
Is in our minds 'Cause there are worlds
We can find
A hidden place
Is in our minds 'Cause there are worlds
That we can find
A hidden place
Is in our minds 'Cause there are worlds
We can find
A hidden place
Is in our minds 'Cause there are worlds
We can find
A hidden place
Is in our minds 'Cause there are worlds
We can find
A hidden place
Is in our minds
