

# If You Can Want

## **Smokey Robinson & The Miracles**

Oh

Oh, you may not love me now but I'm stayin' around

'Cause you want my company

Just like push can turn to shove, like can turn to love

And it's my philosophy that

If you can want, you can need

And if you can need, you can care

If you can care, you can love

When you want me I'll be there

Whenever you want me, I'll be there

Oh, now this may take some time, but if time was money

I would be a millionare

So whenever you want me call, any time at all

And for sure I'll be right there, 'cause

If you can want, you can need

And if you can need, baby, you can care

If you can care, you can love

So when you want me I'll be there

(I'll be there) when ever you want me, oh yeah

I'll be standin' by, not far way

Let your mind give me a sign

'Cause I'm prepared to wait until that future date

When you'll want me all the time, 'cause

If you can want, you can need

And if you can need, you can care

If you can care, you can love

So when you want me I'll be there

(I'll be there) when ever you want me

You can want, you can need

You can need, you can care

You can care, you can love

So when you want me I'll be there

I'll be there, whenever you want me (you can want)
