

I Wanna Die at 69

King Dude

im gonna take you there wherever there is
you'll ride and die with me into the eclipse
we'll sleep like two demon dogs c'mon, give me that kiss
if you wanna see where heaven is you've gotta learn
to look deep into the abyss
i dont wanna live forever baby, im not
scared to die, write my name in their blood
on the wall like its 1969
i dont wanna live forever baby, im not
scared to die, start to live like they did in the end
black in 1969
Oh i wanna die at 69 oh i wanna die
Oh i wanna die at 69 oh i wanna die
i wanna see the sun rise in the west
and watch it go down as i watch her undress
she aint no fool she knows the worlds in a mess
it dont make no difference to her now cuz she knows
she cant hold what she dont possess
i like the look of her in the light of my lord
she's wraped up tighter than a telephone cord
i hold the crown - she holds the sword
in heaven never looked as good as she did in
the gown she wore the last day in the hospital
i dont wanna live forever baby, im not
scared to die, write my name in theis blood
on the wall like its 1969
i dont wanna live forever baby, im not
scared to die, start to live like they did in the end
dead in 1969
Oh i wanna die at 69 oh i wanna die
Oh i wanna die at 69 oh i wanna die
and at the end of our days i'll hold you in my arms
Until all the syringes run dry and all of our dreams
Day in the hills, with all of our enemies dead
there aint no little piggies left to kill
***** all these hall ways of allways i always
will run to you still
i wanna die al 69
