

# Best Thing That Never Happened

Paul Westerberg

I'm the best thing  
That never happened  
I'm the best thing  
You never had You're the best thing  
That never happened  
That never happened  
It's really too bad And I was the last thing  
That you ever wanted  
I'm the best thing  
You never had You were the first one  
To turn me on  
To turn me on fast  
To turn me down flat You were the first one  
To turn me on fast  
To turn me on fast  
To turn me down flat 'Cause I was the last thing  
That you ever wanted  
Still the best thing you never had Now you don't know  
What you're missing  
You'll never know what you had  
You'll never know what you're missing, oh yeah I was the best thing  
That never happened  
The best thing you never had But you want all the pick of the litter  
Don't go away bitter  
Now I wouldn't do that I was the last thing  
You ever wanted  
The best thing  
You'll never have Baby, the best thing  
That never happened  
The best thing  
You'll never have  
The best thing  
You'll never have
