

You Need Me

DJ X-Verse

(Clarence Paul)

When day is done and you come home
You shouldn't spend your nights alone
 That's when you need me baby
To always know that someone cares
And love like mine should be shared
 We'll see you'll need me baby
We'll build up dreams and memories
 And maybe raise a family
So give your love to one who yearns
 I'll promise true love in return
 How can you be so blind
 Can't you see you need me
 If you should disappoint me
 And refuse my love
 I know my heart would die
'Cause you are my reason for living

My heart and soul I'm giving
 Darling hear my cry
 You need me
To me my love's sacred thrill
It's all for you and you alone
 You see you need me baby
Though you may find another who
Might take your love and be untrue
 You see you need me baby
Have you experienced in the past
One sided love affairs don't last
 No need to take a chance at all
When I'm just waiting for your call
 How can you be so blind
 Can't you see you need me
 You need me, you need me
