

Aerial

Chris Whitley

Sheets of golden velvet rain
Lubricate my naked steel again
Let the day go by far below
Million miles of sky all I know Aerial, aerial, get on Aerial power glide
Preparing to see her, I got to rise
And now I'm touching myself
I'm painting my eyes Let the day go by far below
Million miles of sky all I know Aerial, aerial, get on
Aerial, aerial, get on I got friends from other systems too
They all need the same thing you do Let the day go by far below
Million miles of sky all that I know
Let the day go by all I know Aerial, aerial, get on
Aerial, [Incomprehensible], get on
Aerial
