Cure

Endwise

The man takes another bullet
He keeps them all within
He must seek, no matter how it hurts
So don't fool again
He thinks the answer's cold and in his hand
He takes his medicine
The man takes another bullet
Yeah, he's been fooled again
Uncross your arms, take and throw 'em
To the cure, say I do believe
Uncross your arms now, take 'em to it
Say I do believe, yeah I do believe
The lies tempt her and she follows
Again she lets him in
She must believe to fill the hollow
She's been fooled again
Uncross your arms, take and throw 'em
To the cure, say I do believe
Uncross your arms now, take 'em to it
Say I do believe, oh yeah, I do believe, yeah, yeah, oh
Betting on the cure, it must get better than this
Betting on the cure, yeah everyone's got to have the sickness
'Cause everyone seems to need the cure, precious cure
Betting on the cure 'cause it must get better than this
Betting on the cure, yeah everyone's got to have the sickness
'Cause everyone seems to need the cure, oh yeah, precious cure
I do believe, I do believe, I do believe, I do believe
I do believe, I do believe, I do believe, I do believe
I do believe, I do believe, I do believe, I do believe
I do believe, I do believe, I do believe, I do believe, I do believe
Betting on the cure, yeah it must get better than this
Need to feel secure, yeah it's gonna get better than this
This, this, it must get better than this, betting on the cure
Yeah everyone's got to have the sickness
'Cause everyone seems to need the cure
I do believe, I do believe, I do believe
