

# Wilder Than the Rest

## Read Southall

We grew up wilder than the rest  
All we needed was keystone light  
and a pasture full of friends  
Pastors told their daughters  
won't you stay away from them  
Don't let me catch you runnin around there ever again

We were wilder than the rest  
Didn't have no one to impress  
Just like our daddies were back in their prime  
Chasin women and killin time  
Chasin women and killin time

We weren't no rich men's sons  
so we would work that 8 to 5  
Boss man would laugh at our swelled up heads and our rudd shod eyes  
Well I got fired one summer  
And it wasn't for being late  
Boss man put 2 and 2 together  
His daughter was about my age

We were wilder than the rest  
Didn't have no one to impress  
Just like our daddies were back in their prime  
Chasin women and killin time  
Chasin women and killin time

Yeah we're grown up now  
Ain't real calm  
We still get together when we can  
Just to tie one off  
Cept for me and a few  
We haven't said no vows  
We got plenty of years to grow up  
But for now

We'll be wilder than the rest  
Ain't got no one to impress  
Just like our daddies were back in their prime  
Chasin women and killin time

Keep on chasin women and killin time
