

# Drove

XO

Keep my enemies close to me  
And I've been watching you closely  
Yes I despise you mostly, yes you  
You think you're tall for dogging me  
You're small you see a wanna be  
A mirror of me is stolen, identity

## Why'd I do it?

You drove me to it

## Why'd I do it?

You drove me to it

## Why'd I do it?

You drove me to it

## Why'd I do it?

You drove me to it

You think you're tall for dogging me

You're small you see a wanna be

A mirror of me is stolen, identity

I keep my friends close to me

And I've been watching you closely

Yes I despise you mostly, yes you

## Why'd I do it?

You drove me to it

## Why'd I do it?

You drove me to it

## Why'd I do it?

You drove me to it

## Why'd I do it?

You drove me to it

## Why'd I do it?

You drove me to it

## Why'd I do it?

You drove me to it

## Why'd I do it?

You drove me to it

## Why'd I do it?

You drove me to it

You can take the high road

We'll play by my rules

You can take the high road  
We'll play by my rules  
Say never, say never, say never, say never  
Say never, say never, say never, say never  
Say never, say never, say never, say never  
Say never, say never, say never  
Never, say never, say never, say never  
Never, say never, say never, say never  
Never say, never say  
Never say, never say  
Never, say never, say never, say never  
Why'd I do it?  
You drove me to it drove  
Why'd I do it?  
You drove me to it drove  
Why'd I do it?  
You drove me to it drove  
Why'd I do it?  
You drove me to it drove  
Yeah
