

# Ballare Con Me

Oscar Zia

incredible, the way you look so beautiful  
it's like you light the skies, and now we're flying just like butterflies.  
to me you might be that somebody, not just anybody  
cause i've been looking for somebody, not just anybody  
to me you might be that somebody, just don't really sure  
you're the one, you're the one, you're the one we've got starlight lighting up the floor like the sun  
vieni a ballare, ballare con me  
feel my heart beat, pounding up my chest like a drum  
vieni a ballare, ballare con me  
vieni a ballare, ballare con me  
vieni a ballare, ballare con me it's chemical, the way i feel insatiable  
it's like we kiss the sun, and now we're gonna live forever young  
to me you might be that somebody, not just anybody  
cause i've been looking for somebody, not just anybody  
to me you might be that somebody, just don't really sure  
you're the one, you're the one, you're the one we've got starlight lighting up the floor like the sun  
vieni a ballare, ballare con me  
feel my heart beat, pounding up my chest like a drum  
vieni a ballare, ballare con me  
vieni a ballare, ballare con me  
vieni a ballare, ballare con me we're dancing internally, just you and me  
for as long as the world keeps spinning around, i'll be there  
ballare con me we've got starlight lighting up the floor like the sun  
vieni a ballare, ballare con me  
feel my heart beat, pounding up my chest like a drum  
vieni a ballare, ballare con me  
vieni a ballare, ballare con me  
vieni a ballare, ballare con me  
incredible, the way you look so beautiful
