In a Miracle

Chrissie Hynde

If you can't understand
Why a castle that's made out of sand
Disappears overnight,
Then there's no point me saying this love isn't right.Unless you can believe
In a miracle
Unless you can believe.If you can't understand
Why some tears never dry all the time.
That's how rivers begin,
And the fateless line up to jump in
If you haven't found out,
There's a rumor that's going about
That love's come to stay,
But I wouldn't believe what they say -
No I wouldn't believe what they sayUnless you can believe
In a miracle
Unless you can believe
In a miracle
Unless you can believe
In a miracle
Unless you can believe.Fly away on the wings of an angel
Never touching the ground
Fly away with my heart in your hand
Never making a sound.If you can't understand
Why a picture that's made out of cloud
Dissolves when it rains
Then try saying "I love you" out loud
Then try saying "I love you" out loudIf you can believe
In a miracle
If you can believe
In a miracle
Unless you can believe
In a miracle
Unless you can believe.Fly away on the wings of an angel
Never touching the ground
Fly away with my heart in your hand
Never making a sound.If you can't understand
Why a castle that's made out of sand
Washes into the sea,
Then try saying "this love's meant to be"

Then try saying "this love's meant to be"
