

# Beer On A Boat

Ashton Shepherd

It's gonna be a scorcher of a day and the water is callin'  
Got an iced down cooler and a seventeen footer we're haulin'  
Baby, back her down the ramp and don't jackknife it  
Let's see how many people we can fit inside it  
I think we've got half of the town invited

For some beer on a boat on a Saturday  
A few good friends just floatin' away  
The world looks better through a cool pair of shades  
With some beer on a boat on a Saturday

Got the girls on the inner tube  
Hangin' on tryin' to prove what they got  
And if you ain't wet yet  
Then Buddy's gonna get you with a belly flop  
There's some boys on the dock wavin' and whistlin'  
Some old men yellin' that we're messin' up their fishin'  
But they're just jealous cause they know they're missin' on

Some beer on a boat on a Saturday  
A few good friends just floatin' away  
The world looks better through a cool pair of shades  
With some beer on a boat on a Saturday

Ain't nothin' like a sunny day to make your troubles fade away and disappear  
Wouldn't be all bad if we all ran out of gas and got stuck here

With some ice cold beer on a boat on a Saturday  
A few good friends just floatin' away  
The world looks better through a cool pair of shades  
With some beer on a boat on a Saturday

Gettin' redder by the minute but we got it made  
With some beer on a boat on a Saturday
