Bigger Shoe

Consumed

so what's left to say?
You've come all this way, drifting among the debris.
So far so good, maybe you should, pack up and relocate.
you need to be, anywhere else but here.
You need to see, anywhere else but here.
If I can be, anywhere else but here.
I'm gonna be anywhere else but here.There's a winner every day.
He's perfect in every way.
There's a winner every day.
He's perfect in every way.
there's a winner every day.
