Apostrophe

Pierre Schaeffer

if you penetrate the door
you've got a hallway highway to some other
can you handle handrail, in all honesty
stats out very uneven
questionable how you're climbing
steps?
what's that mean
i hear the creaking speaking
very welli stand watching from the banister
we are both equally explosive
you've come in all unexposed and
get your new skin on now
on the outside again
feels funny to you now
looks like you get another shothere's a bat
you're a hit with mefurious in the fast fast forest
body hollow attic
looking for some skin to share
apostrophe
looking for me
your eyes ask mine if i'm
anywhere
can you scal live wire
quite impaired but i'm dying to take the dare
so climb
