

Ready

Kodaline

You tell me that you're ready but you just don't know
My eyes are getting heavy and it's starting to show
I'd never seen it coming, never seen a thing
Maybe I'll get through whatever's coming to me 'Cause I've been so lucky, I don't know what to say
I'm running out of money, I've been wasting away
I'd never seen it coming, never seen a thing
Maybe I'll get through whatever's coming to me We fall (we fall down)
If we fall (we fall down)
If we fall down hard I'll be ready to crawl And I'm ready, I'm ready for it
I'm ready, I'm ready for it
I'm ready, I'm ready for it all Look me in the eye when I'm talking to you
It's easy to get nervous, I've been feeling it too
Yeah it's kinda crazy, yeah it's kinda dumb
Never let the pressure overpower the fun Yeah I'm sure your parents probably said it to you
Follow what you love and you will love what you do
Never let the pressure tell you that you're not
Capable of being anything that you want We fall (we fall down)
If we fall (we fall down)
If we fall down hard I'll be ready to crawl And I'm ready, I'm ready for it
I'm ready, I'm ready for it
I'm ready, I'm ready for it all
[x2][instrumental] I'm ready, I'm ready for it
I'm ready, I'm ready for it
I'm ready, I'm ready for it all
[x2] Look me in the eye when I'm talking to you
It's easy to get nervous, I've been feeling it too
Yeah it's kinda crazy, yeah it's kinda dumb
Never let the pressure overpower the fun I'm ready, I'm ready for it
I'm ready, I'm ready for it
I'm ready, I'm ready for it all
