

# Nirvana

## The Icicle Works

Armadillo skin and the leafy green  
Our minds are where we keep her  
The ideas born of the western world  
Were always buried deeper  
When at the end of the working day  
We imitate the mountains  
Riding high on a wanderlust  
To question what we came for

You know, we're living for your love  
You know, we're living for you  
Come out of the dark, elusive one  
Hear your subjects who call you  
You know, we're living for your love  
You know, we're living for you  
Come out of the dark, be sure of this  
Nirvana, we adore you

Burned and dry, our sights are high  
Forever young with wonder  
With our bare hands, built an empire there  
To sacrifice and plunder

You know we're living for your love  
You know we're living for you  
Come out of the dark elusive one  
Hear your subjects who call you  
You know we're living for your love  
You know we're living for you  
Come out of the dark, be sure of this  
Nirvana, we adore you  
Nirvana, we adore you  
Nirvana, we adore you

Burned and dry, our sights are high  
Forever young with wonder  
With our bare hands, built an empire there  
To sacrifice and plunder

You know we're living for your love

You know we're living for you  
Come out of the dark elusive one  
Hear your subjects who call you  
You know we're living for your love  
You know we're living for you  
Come out of the dark, be sure of this  
Nirvana, we adore you

When will you let your feelings out of the cage? (x9)
