Evil Primeval

Dwarves

It was late last night and I was wandering around
Looking for something that could not be found
But up and up in the field of dreams
And if you've never been evil
Well then you've never been me
Yeah it was late last night in a world of sin
I'm puttin out voodoo (?) with nose pin
Ask no questions, I won't tell you know lies
And if you've never been evil
Well then you've never been alive
Said you've never been alive
I'm evil primeval
