Change Her Mind

Gene Watson

Advisory - the following lyrics contain explicit language:

Morning's closing in on me, how can I face another dawn?
My life lost all meaning, the minute she was gone
I begged and I pleaded, I done all a man can do
I've tried everything Lord, now it's time I turned to YouI know You can move a mountain, take the stars out of the sky
You can send down a rainbow, You can even turn the tide
Once You even made a blind man see, changed the water into wine
I need a miracle, please Jesus, would You change her mind?When she was here beside me, Lord, you know how good it was
Who have ever thought back. then I could have lost her love
Now Im standing here a broken man, I can't make it by myself
I may not be worthy Lord, but won't You get me through this hell?
I need a miracle, please Jesus, would You change her mind?
