duet

Frankie Cosmos

Hurry up a bit Yeah, yeah I like the way you do it when you do it When you doin', what you doin'? I like the way you do it when you do it When you doin', what you doin'? I like the way you do it when you do it When you doin', what you doin'? I like the way you do it when you do it When you doin', what you doin'? Check this out right here son, we about to move to make you feel some A lot of positive vibrations to build from 'Cause all I wanna do is lose some and win some Have a little of prosperity and then some Livin my life handsome, has always been a dream but Now it's time to really achieve by all means, bust it I keep my shit, plus thirty in between When an arm reach out to grab the supreme 'Cause I won't stop, and AP won't stop And Tab won't stop until we reach the top That means we won't quit, so we stay thick so you can enjoy it I know you like the way it's goin' down, honey honey I know you like the milky-mellow sound, honey honey Doin' this ain't all about money, money I know you like the way I sound, right right I like the way you do it when you do it When you doin', what you doin'? I like the way you do it when you do it When you doin', what you doin'? I like the way you do it when you do it When you doin', what you doin'? I like the way you do it when you do it When you doin', what you doin'? As I enter the room I absorb the mood Positive vibe supplied by a positive crew And negativity exist and you must acknowledge You can be intelligent and never go to college 'Cause the way we live in society It ain't really the way that it's supposed to be

And don't get close to me if you're contaminated Take a picture of your soul and get it laminated Put them in your wallet next to your money Money represents your whole and soul represents your honey Ain't got honey then you ain't got bees

And if you ain't got no money I'ma still MC Then empty L O V E all over the track Once you R E D then you never go back 'Til the end of studio with the Peas as black With Adam, Taboo and Alligator APL De AP I like the way you do it when you do it When you doin', what you doin'? I like the way you do it when you do it When you doin', what you doin'? I like the way you do it when you do it When you doin', what you doin'? I like the way you do it when you do it When you doin', what you doin'? Yeah, I wanna travel the world and stop on every city Rejuvenate your burnt out sea put down your Philly for a sec Close your eyes and don't fret Listen to the audible sounds and just let Your soul feel the free feelin' Reprovide you with the ride, free fallin' To make your heart beat, skip, hipnotize you and APL take you on a trip where your mind's at ease Forget ballin 'cause I won't quit and Will won't quit And Tab won't quit so you can enjoy it That means we won't stop and I won't stop until we reach the top I'd rather be ready for the future Do it for yourself 'cause no one else will suit ya I juxtapose for mine to maintain and segregate myself from evil and pain I like the way you do it when you do it When you doin', what you doin'? I like the way you do it when you do it When you doin', what you doin'? I like the way you do it when you do it When you doin', what you doin'? I like the way you do it when you do it When you doin', what you doin'? I like the way you do it when you do it When you doin', what you doin'? I like the way you do it when you do it When you doin', what you doin'?

I like the way you do it when you do it When you doin', what you doin'? I like the way you do it when you do it When you doin', what you doin'?
