Kill the Barflies

sElf

It was all right there in front me
While on a club kid's high
On old folder labeled photography
With naked photos inside
Acting as if it were not happening
Were dead rappers on the television rappingIf you not scared then they're gonna make you
Feel your head tumble like the London Bridge
Dear, tonight they've got you in their antenna
And their tracking
Wonder twins activate, megatron rejuvenateThey're scheming on a way
To get you into bedIf this is nightlife then bring back the sun
Go ahead and count me out
All the boys with their head trip calamities
Scope girls that fall prey to them unwillinglyIf you not scared then they're gonna make you
Feel your head tumble like the London Bridge
Dear tonight they've got you in their antenna
And their tracking
Wonder twins activate, megatron, rejuvenateThey're scheming on a way
To get you into bedWhen we're old and gray and incapable
Of any rational jive, I'm gonna bribe the nurses
To pull the plugs that keep them alive
So untie your shoes 'cause you're drowning
From all the pressure and tension that's mountingTaken by fashion and a pretty face
Unaware of the webs that they weave
See first hand, the game that they
Throw out like Michael Jordan
Kit, kick the turbo on, transformers transformThey're scheming on a way
To get you into bed
