

Bright Lights

[Archive](#)

Night songs are lonelier
Soundwaves fell the emptinessLive for a day in the light
Conal streams are filling my eyes
Never mind such slide of decay
And the flesh that only try to eraseBright lights are filling me
Bright lights are driving me deep
Bright lights surrounding meShadows are leaving me
Unhitch the beautiful
I wanna see how far we go out
I wanna hold you dearlyAnd there's a breeze that's keeping me still
There's a wound that's keeping you hereBright lights are killing me
Bright lights are pulling me in
Bright lights are flooding meBright lights are filling me
Bright lights are driving me deep
Bright lights surrounding me
