Touch Me

Girls Under Glass

We try to live a dream
Of peace and harmony
Relax and touch my skin
But close your eyesCome here, don't walk away
Find yourself and stay
Trust me all night and day
You've got the keyYou can reach my heart
And we fly away, touch me
I will break apart, you and me
We will be free, touch meCome look into my soul
There is no chance to hide
The beauty of the end
Can you understand?Don't try to hide your greed
And you will find much more
No life behind the wall
After the warYou can reach my heart
And we fly away, touch me
I will break apart, you and me
We will be free, touch meTouch me
Touch me
