

# You Are the One (feat. Charles & Taylor)

[William McDowell](#)

You are the One that I need  
The song I sing, the air I breathe  
Just can't explain the things You do  
Nobody else compares to You  
There's no other help that I know  
No other place that I can go  
You are my strength when I get weak  
Finally, Your face is all I see (all I see) (it's all I see) Just when I feel I'm all alone  
Right when I feel my strength is gone  
That's when You come and rescue me  
I find my way back and You set me free  
There's nobody else that can compare  
Never alone, You're always there  
Kindness and mercy follow me  
Finally, Your face is all I see All-consuming fire  
My heart's desire  
Your face is all I see  
You are the One I need You are the One I need (4x)
