Another Night Lonely

Justin Wells

I wake up, four in the morning
whole new set of scars
a picture of you
that my tears have made see through
I've got heart ach I know what it means
I've got heart ach and I know what it means

Its another night lonely
and this house sure ain't helping
my only friend is the wind
I'd drink you here with me
if I had one more memory
but I've got heart ach and I know how it ends
I've got heart ach and I know how it end

Lord when I cross the line
will your hand be in mine
will the man put an end
to this hell I've been in
all this time
you my name
lord, is it ever going to be the same
its the flame that's long burn away
its the lonely road

I'm sure there's a good ending
to this time I've been spending
with a whole lot of pain on my mind
some beautiful place
where the best of us stay
I've got heart ach instead of goodbye
I've got heart ach instead of goodbye

Lord, when I cross the line
will your hand be in mine
Will the man put an end
to this hell I've been in
all this time
you know my name
lord, is it ever gonna be the same

Its the flame that's long burned away
Its the lonely road
Its the flame that's long burned away
Its the lonely road
