

Blacklight

Misfits

A pounding pulse stirs anxious feelings inside
Sick breaths of undead life "Help me Angel from evil" cried
The children of the night
Take this wasted mortal life
Melt me into blacklight Lie on the floor and let the body die
Become the beasts in which you fear "Help me Angel from evil" cried
The children of the night
Take this wasted mortal life
Melt me into blacklight "Help me Angel from evil" cried
The children of the night
Take this wasted mortal life
Melt me into blacklight
