

Tint of Blue

Bee Gees

A tint of blue, deep down inside my heart, each time I see you
It would take a lot to ease my pain from all these chains
A tint of red, each time I see you with another
Just because I was your lover, jealous I
I get so angry I could cry
A tint of blue, why do you make me feel so sad
Why do you leave me feeling bad the way I do
A tint of blue
A tint of red, each time I see you with another
Just because I was your lover, jealous I
I get so angry I could cry
