

Recovery

Sally Seltmann

Recovery, recovery, recovery, recovery
People say I need some recovery
They can't seem to handle my energy
If you hate me, stand up in front of me
 You can meet my God
 When the sun shines down
 I will always be there
 When you wear the crown
 They will come to defeat you
 Recovery, recovery, recovery
 Stick it to me, fear and ferocity
 I have uncuffed your animosity
Ain't no doubt there's something inside of me
 That can't be left alone
 When the sun shines down
 I will always be there
 When you wear the crown
 They will come to defeat you
 If you turn back now
 They will make you a believer
 You'll be a face in the crowd
 But you'll never be a leader
 Oh, yeah
 Oh, yeah, oh yeah
 Oh, yeah, oh yeah
People say I need some recovery
They can't seem to handle my energy
If you hate me, stand up in front of me
 You can meet my god, yeah
 When the sun shines down
 I will always be there
 When you wear the crown
 They will come to defeat you
 If you turn back now
 They will make you a believer
 You'll be a face in the crowd
 But you'll never be a leader
 Recovery, recovery, recovery
 Recovery, recovery
