

Sugar (feat. Jelly Roll)

Busta Rhymes

Hey baby put your hand on my heart
Tell me if you ever felt a heartbeat like this[Chorus]
Boom boom boom boom boom
Is the sound that you hear
From my heart beating hard like a bass drum
Zoom zoom zoom zoom zoom
As my blood starts to raise through my veins
All I wanna is to be close to you
I like you in those boots, you know just what to do
Girl let me see those tattoos I'm gonna ride with you
Right here's the perfect place for me to kiss and fuck you
I can't wait to taste your sugar I want to taste your body
I want to taste your face
I want to taste your breast taste below your waste
That's some of my many wishes
Fresh out the bubble bath girl you taste so delicious
From when you leave and go to work and how you blow me kisses
The way you come back to the crib and cook and wash the dishes
It's kinda hard to fight it once the fire is ignited
You feel my heart beat baby you got me so excited[Chorus] I can't explain the feelin'
It's such an amazing thing
You like a prize position
A gift to any king or wings
Is only here to protect us
No matter what we go through
And how it might affect us
Tired of the lectures
A piece to tell me to chill
But they don't really understand what I'm tryin' to build
But I brush it off as nothing
Baby let me tell you something
Every single time I see you my adrenalin be rushin'[Chorus] Your body is smoking like a Newport
Better yet I'm backwards
You like it in the back seat case baby girl your that hood
I never had it how you put it on me
The way you move is makin' me horny
Man I just wanna kiss you all over you body stretch you like palates
Baby lets get naughty do it how we do fuckin' all around the house
Started on the bed ended up on the couch Damn I touch you and you touch me

We get closer and you hold me like your holdin'
On for dear life boldly
And we go out on the balcony
And let our bodies wrap up and we fuck
Until the sun come up housekeepin' come and catch us
I don't care tho you takin' it im givin' it we breakin' it
Everything up in the room like a tornado in the makin'
And I'm wildin' and I'm racing baby let me take you down
And while you give it to me let me give it back girl listen to the sound as it goes[Chorus]
