I'VE GOT A WOMAN TO LEAN ON
(Jim Owen)
'74 Sixteen Stars Music, BMI(I've got a woman to lean on)
I've seen times there was no way the sun could ever shine
And I've seen me so completely down and I count up every time
But I've got me something special that keeps me going strong
When life gets rough hmm hmm I've got a woman to lean on
I've got a woman to lean on when I need her she stands by
She's a lovin' flowin' fountain the stream that never will run dry
She's a lady and she's a mother I think of which some kinda lover
Hmm hmm I've got a woman to lean on
I can't buy her the things I'd like but I don't hear her complain
If I needed water to save my life I think she could make it rain
And it's just a fact of livin' that sometimes things go wrong
But I don't worry hmm hmm I've got a woman to lean on
I've got a woman to lean on...
Hmm I've got a woman to lean on
