

Show Some Respect (2015 Remastered Version)

Tina Turner

I made a resolution and I plan to keep my work
But I need you to make it work
You've got to read the message, understand what's on my mind
'Cause not to see would be a crime
And we could lose it anytime We've got to show some respect
We've got to learn to protect
Don't take it for granted, I know
That if you want to stay close
We've got to show some respect But I believe in working, then I believe in a little help
'Cause I'm not a light unto myself
Without a thing of value, why settle for second best
We don't know what's up ahead
And we can't let ourselves forget We've got to show some respect
We've got to learn to protect
Don't take it for granted, I know
That if you want to stay close
We've got to show some respect For the things that I love about you
From the woman that you see inside
Don't let it walk out the door
Love follows every time For the things that I love about you
From the woman that you see inside We've got to show some respect
We've got to learn to protect
Don't take it for granted, I know
That if you want to stay close
We've got to show some respect We've got to learn to protect
Don't take it for granted, I know
That if you want to stay close
We've got to, we've got to, we've got to show some respect
We've got to, we've got to, we've got to show some respect
We've got to, we've got to, we've got to,
Respect
We've got to hold it, we've got to hold it, we've got to hold it, (Respect)
Respect
We've got to hold it, we've got to hold respect
Hold on (Respect)
Respect
Hold on
Respect, respect, respect
