## King's X

I can't believe summer's almost here  
I made it through another year even if alone  
But there's no tears in my eyes, life is still full of surprise  
I'm not looking for a one night stand I stand behind you and I watch you from a mile away  
Wishing you could be the one but not here this way I got to know your name  
I must know who you are, yeah I look at you and I know who you are  
You're just a little bit too far from my home  
But please don't get me wrong even though it has been long  
I hope I never sing my last song without someone I stand behind you and I watch you from a mile away  
Wishing you could be the one but not here this way I got to know your name  
And I must know who you are, yeah I stand behind you and I watch you from a mile away  
I'm wishing you could be the one but not here this way I'd like to know your name  
And I must know who you are, yeah
