Could it be
We got the world chasin' a dream
Could it be
They callin' us
Modern Luther Kings
A team of 3 cats
And a king
A tale unfolds
While the whole world is
Watching
Word on the street is
We the Fugees with a swing
But I say we are What they could have
Been with the trinity
You listening
To a man that's free
He gave me the keys I free'd slavery I
Write mean sixteen's
So y'all can feel me
And I write liberty
So y'all can feel he!Shut the door man come on in,
There's a new thing about to begin,
Bring the party to life,
We see them dead get the oxygen
There's a new thing about to begin,
Bring the party to lifeHow ya doin' man,
I'm about to ruin any group 1 opinion that you might have had,
See we the soul train part of this game
And no fame is gonna make us change (that's right),
What it been like,
We done traveled the world and haven't seen nothing better

Than Christ (sho you right)
This ain't cocky you watch me
While I watch he who bought me like I was eBayed and not cheap,
So its only right that I let this microphone
Become part of my bones while I give it life,
What you're hearing is an exhale god breathes
And I receive flow so you can't tell,
Who this be when we ride this beat we 3 deep in the front seat with destiny,
Make no mistake homy we goin' reap
What sown new rights to homes
While god makes us right at home I hit the spot 8 o'clock I be rockin' it,
Keep it live when I arrive ain't no stopping it,
Hit the dance floor breaking, poppin, lockin' it,
Like a Rolex everybody's watching this, never
Knew Christ could be so marvelous we the crew
That you can't forget we own this, so get your
Shoes on and you're lookin' right
Everybody in the spot bring the party to life
