Ignorance Is Bliss

Beartooth

Pick up the pieces
Fix my diseasesI'm tied down to my bed
Wanna get out but I can't commit
Dead spirit dead spirit
Lethargic lethargicWake me
Wake me up get me out
Shake me
shake me till my neck breaks
Hit me
Put your fist in my chest
Give me
CPR before I'm deadPick up the pieces
Fix my diseasesStaring at the ground while I'm walking lately
Haven't seen the sun in a week and it's killing me
Depression has its grip trying to keep me sick
Medicated but still not thinking freely
I haven't eaten in a week and it's killing me
There's a darkness in my soul but I will never be controlledIgnorance is bliss isn't itWhen your house is empty
They moved out they moved on
But you don't even notice
Cause you're busy being dead in your roomWake me
Wake me up get me out
Shake me
shake me till my neck breaks
Hit me
Put your fist in my chest
Give me
CPR before I'm deadPick up the pieces
Fix my diseasesStaring at the ground while I'm walking lately
Haven't seen the sun in a week and it's killing me
Depression has its grip trying to keep me sick
Medicated but still not thinking freely
I haven't eaten in a week and it's killing me
There's a darkness in my soul but I will never be controlledI'm not
I'm not one of your demonsIgnorance is bliss isn't it
