

# Bye Bye

[Maria Mena](#)

I couldn't change him if I tried  
I couldn't be his doll even if I wanted to  
Cause I'm me, not you I couldn't be a little girl  
I couldn't walk around like I had no clue  
Cause I'm me, not you Look where you've got me this time  
I'm up against the wall like I committed a crime  
Take care, I hope never to see you here  
Bye, bye  
I promise not to cry  
Bye, bye I couldn't lead them on like mice  
I couldn't fool them all, that's not something I do  
Cause I'm me, not you I couldn't hide my purple eyes  
I couldn't swallow them and not even chew  
Cause I'm me not you Look where you've got me this time  
I'm up against the wall like I committed a crime  
Take care, I hope never to see you here  
Bye, bye  
I promise not to cry  
Bye, bye your disguise is not fooling me  
Your embrace is not comforting  
And I can't follow you around  
Cause I see your evil ways  
And it kills your innocence  
(But I still followed you around) Take care, I hope never to see you here  
Bye, bye  
I promise not to cry  
Bye, bye
