Strike the Match

Autodrone

Strike It!
Verse 1:
Wait baby with the blue jeans on
You've been staring at me all night long
I know you want it and you know it's wrong
But you don't worry about the danger,do you?
I see you swearing things from over there
I see you slowly but if you don't care
Act then you like you shut up or you best be aware
I can let your match start a fire in here

I know you want me
I know you need it
and how I feel me
Really,really,really wanna
Strike the Match
