

Raise Your Hands

Tokio Hotel

You say, "It's all so important"
All right, it's what you say again
I know you are more than perfect
Believe and I'll believe you then
Move back than moving forward
Okay, there's got to be a way
Stand still, otherwise it's over
Run on but don't you run away
My head is full of nothing
See the shadows passing by
One thousand diagnoses
Yeah, yeah, okay
We are here tonight
Leave the world aside
I see you shining bright
Raise your hands together
Chaos all around
Why we're going down
Let's stop fearing now
Raise your hands together, all together
You say, "You can come with me"
Don't doubt, don't you dare
Whatever's gonna happen tomorrow
With your plan we're prepared
My head is full of nothing
See the shadows passing by
One thousand diagnoses
Yeah, yeah, okay
We are here tonight
Leave the world aside
I see you shining bright
Raise your hands together
Chaos all around
Why we're going down
Let's stop fearing now
Raise your hands together
We are here tonight
Raise your hands together
I see you shining bright

Raise your hands together
Chaos all around
Let's stop fearing now
All right, I'm fine, never mind
We are here tonight
Leave the world aside
I see you shining bright
Raise your hands together
Chaos all around
Why we're going down
Let's stop fearing now
Raise your hands together
We are here tonight
I see you shining bright
Raise your hands together
Chaos all around
Raise your hands together
Let's stop fearing now
Raise your hands together
All together
Raise your hands together
