

Everybody Move It

Teddy Thompson

Sat in the corner
You could pass for dead
Get up on the floor, shake your headEverybody move it
Everybody move itIf you'd rather be home
You can leave right now
This is a party, no frowns allowedEverybody move it
Everybody move itBump and grind, have a good time
Free yourself and lose your mind
Now the party's pumping and the groove is on
Grab the nearest body and move alongGo to the next if it don't feel right
But have no fear, get down tonightEverybody move it
Everybody move itBump and grind, have a good time
Free yourself and lose your mind
Everybody move it
