

She's a Winner

Pennywise

When she picked me up I could hardly even stand
I was shit faced drunk she won't mind
I fell over twice but I think she'll understand
cause my girl's a friend of mine She's a winner, she's a winner
She's a winner, she's a winner When we go to parties she need not always be by my side
she's got her own friends I got mine
Cause we both know how the other feels inside
when we got each other man everything's fine She's a winner, she's a winner
She's a winner, she's a winner When we get home well the fun has just begun
I'm on top of her I'm on top of the world
Cause when she goes she is never really gone
For me there is no other girl She's a winner, she's a winner
She's a winner, she's a winner
She's a winner
