Nostalgic

Nuera

Don't be sad that it's over
Just be happy that it happened to us
Don't look back and remember
Drunken tears, oh remember the loveIn my head, I see you laughing
From the words I said, felt like a new beginning
In my head, I see you standing there
The words you said felt like a story endingWe will never, ever be the same
Picture's changing, but not the frame
When I'm sleeping, I still kiss your face
I can't have it, when I'm awakeEven though we lost it, I still get nostalgic
Even if we wanted, we can't turn back the hands of time
Even though we lost it, I still get nostalgic
NostalgicI wonder if you're wearing
That gold chain with a promise from me
Honestly felt so real then
Even now it's not hard to believeIn my head, I see you laughing
From the words I said, felt like a new beginning
In my head, I see you standing there
The words you said felt like a story endingWe will never, ever be the same
Picture's changing, but not the frame
When I'm sleeping, I still kiss your face
I can't have it, when I'm awakeEven though we lost it, I still get nostalgic
Even if we wanted, we can't turn back the hands of time
Even though we lost it, I still get nostalgic
NostalgicWe will never, ever be the same
We will never, ever be the same
We will never, ever be the same
Never be the sameEven though we lost it, I still get nostalgic
Even if we wanted, you can't turn back the hands of time
Even though we lost it, I still get nostalgic
Even if we wanted, you can't turn back the hands of time
Even though we lost it, I still get nostalgic
Nostalgic
