

# End of Time

Gotthard

Won't somebody tell me  
Is it worth to live a life  
If you're not connected to your brother soul  
It's so easy  
Easy if you open up your mind You swear it's the bad luck  
That is sneaking up on you  
Change yourself  
And change your point of view  
It's so easy  
Freedom will be working overtime Take me to the highest of devotion  
Take me where the powers are in line  
Let me find a little piece of heaven  
Till the end of time  
Till the end of time Floating on the system  
Often we're too blind to see  
Mother nature has the answer, anytime  
'Cause it's easy  
Easy if you really gonna try  
Give yourself the freedom  
Don't fall on your knees  
Look at things the other way  
Man, you will be pleased
