No Blue Sky

Shawn Mullins

Cold outside but I don't blame the weather
No one's calling, no one's at the door
But I can't stay inside all day
Blinds roll to the floorThere's no blue sky in my town lately
Everybody looks at the ground
And where I am is making me hazy
But the sun never looked so pretty going downIt ain't right, it feels like forever
So many changes, I stopped keeping score
But if you want me you know where I will be
I don't get out much anymoreThere's no blue sky in my town lately
Everybody looks at the ground
I've been distracted and dulled out, crazy
But the sun never looked so pretty going down
The sun never looked so pretty going downBlue sky, come find me
I'm waiting, mmmThe sun never looked so pretty
Sun never looked so pretty
Sun never looked so prettyCloud and rain, smoke and smog here
Won't see too many stars tonight
Biding time, I'm waiting on the sunset
One last glance of gold, then goodbyeThere's no blue sky in my town lately
Everybody looks at the ground
And where I am is making me hazy
But the sun never looked so pretty going downThere's no blue sky in my town lately
Everybody looks at the ground
I've been distracted and dulled out, crazy
But the sun never looked so pretty going down
The sun never looked so pretty going downThe sun never looked so pretty
The sun never looked so pretty
