

The English Way

Fightstar

You will find your hope amongst the crowds
Of all the people you've let down
We'll find a way to make this okay Yeah, we skipped through the night
It's all that we need too
And maybe it's all that we'll ever need
Just to make us feel alive You are, you are, you're all around
You are, you are, you're all around, you are
You are, you are, you're all around
You are, you are, you're all around, you are I will never give up on you for all the times
You've sat and sang to me trying to make me better
So now I'm trying to let you know that this is the English way
It'll make us all fit back together Please don't speak these words to save them
Walk with me and take a trip
We'll only stop for water and some other things Well yeah, we skipped through the night
It's all that we need too
And maybe it's all that we'll ever need
Just to make us feel alive You are, you are, you're all around
You are, you are, you're all around, you are
You are, you are, you're all around
You are, you are, you're all around, you are I will never give up on you for all the times
You've sat and sang to me trying to make me better
So now I'm trying to let you know that this is the English way
It'll make us all fit back together All within reason all this is gonna be over
Too many lives have been lost under orders
Of too many people, they have lost their voices I will never give up on you for all the times
You've sat and sang to me trying to make me better
So now I'm trying to let you know that this is the English way
It'll make us all fit back together
