

Take It Out On Me

Chairlift

You're here
Early but here (?)
On a morning so clear and blue
Is fate up for debate?
And does my love only count if its proved? Forget forgiveness, forget all the rules
Just please don't do it here
Bring on the fire 'cause business is cruel
And Sophie's got somewhere to be I'm not afraid
So take me outside
I know what you're here to do
Shotgun got familiar sleeves (?)
Undercover but nobody's fooled, no
Got no time, no time for goodbyes
Oh god, just let my love survive Forget forgiveness, forget all the rules
Just please don't do it here
Bring on the fire 'cause business is cruel
And Sophie's got somewhere to be
Take it out on me
Take it out on me Forget forgiveness, forget all the rules
Just please don't do it here
Bring on the fire 'cause business is cruel
Just please don't do it here
Take it out on me
Take it out on me Bring on the fire 'cause business is cruel
And Sophie's got somewhere to be
Take it out on me
Take it out on me
