

# Fire in My Head

## Almost Kings

Chorus:

I let you see a side of me  
And now there's a fire in my head  
Can't calm it down or put it out  
I guess its the way it's supposed to be Verse 1:  
Now I'm a victim of my own incarceration  
Treated like a criminal but also like a patient  
Can't make it through one evaluation  
Without the guidance of a little bad persuasion  
Now you opened up a side of me  
That no one controls and my mind is free  
One side's just filled with hate  
And that side's alive and inside of me  
So if you're strong enough, let's push it back in me  
Suppress all the pain  
Otherwise they'll be another casualty Chorus Verse 2:  
There's a fire pent in me  
And I don't even really want the world to see  
How it burns so bright when you around  
I try to get up but I get knocked down  
How is it possible that you could be just another obstacle  
Flipping the switch now I'm off the wall  
If life is a game I need an audible  
Go silent and drift away  
Go find your gift today  
That gift of love and hate  
And push 'til it feels like your head'll break  
Don't make the same mistakes  
It's too hot when we touch the flames  
It's so sad when the lives are claimed  
I should be ashamed that I Chorus Bridge:  
This fire in my head,  
This fire in my  
This fire in my head  
this fire in my  
Head. Chorus
