

# You Said Goodbye

[Andrea Hamilton](#)

Pedals and roses i guess they just werenâ€™t enough  
We let them get stripped away by the wind  
I knew it was coming but it still hurt to hear the words you said  
Though you didnâ€™t know why ... but

Chorus:

You said goodbye, so i had to make it on my own  
You said goodbye, so i found out life goes on  
And iâ€™m so glad you said it, though itâ€™s strange i know  
But you said goodbye so i could be loved  
By someone who would never say goodbye

Interlude:

Oohhhh

Verse:

All of the grace we said while our eyelashes touched  
My heart was in it but yours wasnâ€™t  
And i broke like dishes i couldnâ€™t see what good would ever come  
But now i know why... why

Chorus

Bridge:

Goodbye is a word that sounds like an end  
But you see itâ€™s green while itâ€™s blue and a brand new beginning can grow  
So thank you, thank you cause

Chorus

Outro:

Ohâ€

Goodbye
