Horsehead

The Jezabels

You take logic off the shelf
Deep in my heart like nobody else
I'm dipping, now, in to forbidden lakes
I don't mind if you call me names
It will remain your recurring theme
The ragdoll who you dare not mend
Be poppin' up on in your broken dreams
It won't stop until the rainbows end
Until the horse has its head
So take logic off the shelf
Deep in my heart like nobody else
Love is a gun I cannot fight
A stronger hold than the hands of time
So don't hate if you don't wear it
Don't hate if you don't wear it

A horsehead in our doorway
For you can cull the beast, cull the beast
And you can shear the sheep, sheer the sheep
But if there comes a time when
When she opens up her doors
When she comes down upon man
She will show him no remorse
So take logic off the shelf
Deep in your heart and your vision of self
Your cold blood is wearing thin
Cold blood and the stain on me
Look at the dear in the headlight
You don't know it will be fine
Look at the dear in the headlight
But don't you be terrified
Of just a deer in the headlight
