I Know You Know

Big Time Rush

Maybe this could be the line
That starts the whole story
Maybe you could be the one
The one who's meant for me
I know that I should wait
But what if you're my soul mate?
I'll slow down when you say, slow down
We can
We can party like the weekend
You got me thinkin', we could be a thing, yeah
I know you know, I've got your heart pumpin'
I know you know, we know we've got somethin'
We could be onto something so good
Tell me that your mine
I know you know, you've got my heart pumpin'
I know you know, we know we've got somethin'
Do you notice me at all?
I'm usually lost for words
You know I can't help but fall
I've never felt so sure
Got me in a hurry
But you don't gotta worry
I'll slow down
When you say slow down
We can
We can party like the weekend
You got me thinkin', we could be a thing, yeah
I know you know, I've got your heart pumpin'
I know you know, we know we've got somethin'
We could be onto something so good

Tell me that your mine
I know you know, you've got my heart pumpin'
I know you know, we know we've got somethin' right
For two of our kind
So let's party like it's 99
I know you know, you've got my heart pumpin'
I know you know, we know we've got somethin'
Hey, baby, you drive me crazy

It ain't about what you done for me lately
It's all about you, no lie, it's the truth
Just wanna say I got a big time crush on you
I know you know
We could be somethin'
I know you know
We got somethin'
We can party like the weekend
You got me thinkin', we could be a thing, yeah
I know you know, I've got your heart pumpin'
I know you know, we know we've got somethin'
We could be onto something so good
Tell me that your mine
I know you know you've got my heart pumpin'
I know you know we know we've got somethin' right
For two of our kind
So let's party like it's 99, yeah
I know we've got somethin'
Woah, oh
We got something so right
Woah, oh
