

# Say a Little Prayer for the World

[Kojo Antwi](#)

I wake up this morning  
Turn on my radio  
All I hear is bad news  
Knocks me down and makes me confuse  
All over the world people fusing and fighting  
All over the world nation against nation  
All over the world starving parents search for food as their babies die

Chorus

Come on say say say brother say  
Little prayer for the world  
Sister say Little prayer for the world  
Tell the good Lord above that the world needs some love
