

Hot House Baby

Moon Martin

My test tube baby dont run down she drives it in the ground
she was a runaway at just 13 the toughest thing ive seen
she was sick of home, sick of school ,sick of mom and daddy too
picked up a trade now she's street made ,she knows just what to do

hot house baby (repeat x 3)

Romeo and south side Jake dont get enough to take
They got a lean hunger ridden face ,an outright mental case
she's hangin out with those mugs she's talkin like a thug
mean and kind at differt spells a teenage Jezabell

Hot house baby (repeat x 3)

Somebody help me in my dreams
They been tearin at the seams
Restless today,and i need her right away

Hot house baby (repeat x 3)

I got a real hot house baby (repeat x 4)
