

Didn't We

Mark W. Curran

I think of all the times
I needed you
And you would come to me
'Cause you wanted to
Oh, and we'd build a fire
That would last through the night
Still be burnin'
In the mornin' light
Oh, we must have had a thousand ways
Oh, takin' our breath away
We took a chance or two
Didn't we?
And made some mountains move
Didn't we? Oh yeah
Then from out of the blue
The storm clouds came
It started rainin'
We just let it rain
Oh, careless love
Oh, careless love
Sadness yes
But no regrets
When we had it baby
Oh, we had the best
Didn't we? I'm askin' you, didn't we ?
Oh, didn't we?
And every now and then
My feelings show
And it takes me awhile
To let you go, don't you know?
You were more than a lover
More than a friend
Never before
Never again
Oh, will it be you and me?
But we had it, had it good didn't we?
I want to say
Oh, we must have had a thousand ways
Oh, takin' our breath away

Oh, will it be, will it be you and me?
Oh, we had it, we had it good, didn't we?
